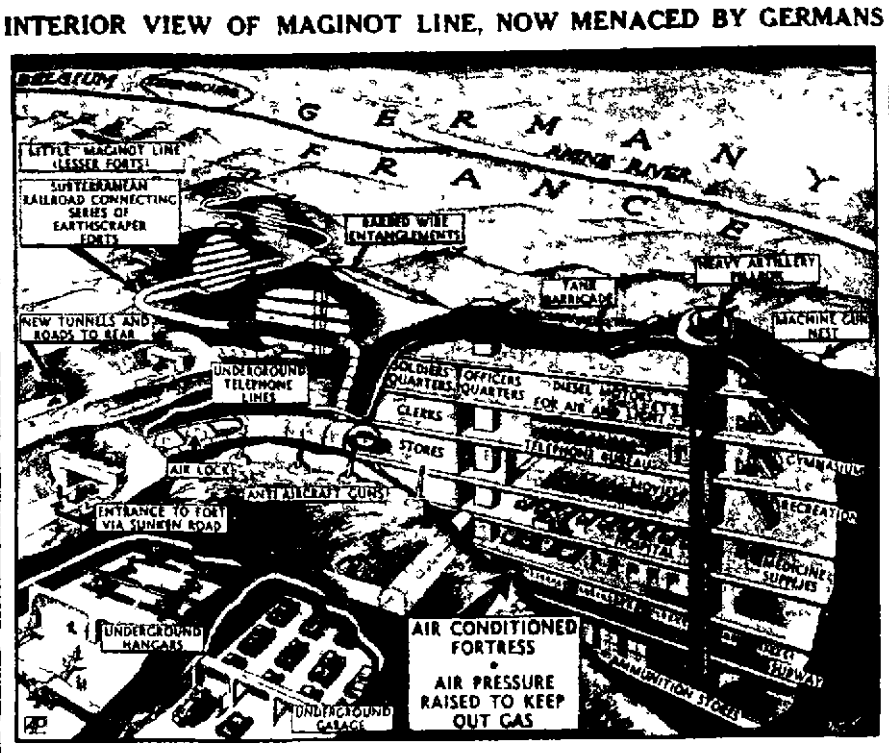
INTERIOR VIEW OF MAGINOT LINE, NOW MENACED BY GERMANS



An interior section of the Maginot line called the world's greatest fortification and once regarded as virtually impregnable is pictured above Now Nazi forces threaten to conquer even this great fortress

This cross section drawing is by an Associated Press artist

A description by the National Geographic society reads

In the subterranean barracks of the French fortifications hundreds of thousands of men may live for several months Adapted to the terrain of the country these buried chambers and galleries contain power stations control posts, storerooms elevators, narrow gauge railways, hospitals, and living quarters equipped with bunks food supplies, radios, kitchens and even amusement facilities '

Facing the Maginot line 12 miles away is the similarly constructed German Siegfried line (also called the Limes line or West Wall)

Fire Destroys Restaurant on Northwest Edge of Upper Sandusky.

Special to The Star

UPPER SANDUSKY June 14—Fire of undetermined origin gutted the Evergreens restaurant here early today resulting in damage estimated by the proprietor A C Jarrel at $17 000

The restaurant located on Route 30 N at the northwest edge of Upper Sandusky and one of the most modern and popular restaurants in this section of the state was closed at a m and the fire apparently broke out a short time later It was discovered about 2 o'clock by Miss Helen Thyret owner of the property who lives nearby Miss Thyret said she was awakened by the noise of the flames and that the entire building was ablaze when she got up to investigate

Miss Thyret summoned the Upper Sandusky volunteer fire department but the fire was already out of control and the firemen concentrated on saving the Thyret residence and other nearby buildings The outside walls remained standing but were badly damaged it was reported

Firemen expressed the opinion that the fire started in a room at the northwest corner of the building used for dancing

Mr Jarrel who holds a lease on the property estimated the loss at $17 000 including the building and the restaurant equipment which he owns He said about half of the loss is covered by insurance

The restaurant was remodeled and redecorated last January after it was struck and badly damaged by an automobile

DEFENSE TRAINING IN MARION STUDIED

U. S. Program May Make Use of High School Shop.

Possibility that the federal government, in its plan to train thousands of men in civilian crafts vital to national defense may use the facilities of Harding High school was reported today by Supt C A Hudson

He announced he has been in communication with U S Commissioner of Education J W Studebaker who sometime ago requested information on the facilities available for training in Marion. Mr Hudson advised the commissioner of the Harding High school shop and reported it would be available to the federal government during July and August and also about three nights a week throughout the other months.

Mr Hudson understands the government has contacted all schools with vocational departments to line up information to present to congress. According to the plan under consideration, congress would appropriate about 50 million dollars to finance a train-

France's Problem Is To Save Army from Destruction

By DEWITT MACKENZIE

Paris—already in German hands no longer counts

An issue far transcending the sacrifice of this beautiful capital now is before the Allies—whether their defending forces can be saved from destruction

The position is just that bad today

The Nazis with the battle of Paris won and the red of conflict in their eyes are flinging themselves with renewed fury on the Allied wings in an effort to envelope and crush the defenders

These thrusts with overwhelming forces have driven deep into the Allied front both on the left flank on the Seine and on the right along the Marne Even the northern end of the Maginot line is in peril

Generalissimo Weygand is falling back and is reported as effecting the withdrawal of his army of a million men in the greatest order

But there is no use blinking at the fact that he is in grave danger despite his vast skill

We can't pass on from this somber thought without asking what may lie beyond It would be useless to try to dispute French Premier Reynaud's words to his people last night

'Today the life of France is at stake—at least France's essence of life.'

Should the Germans succeed in crushing the French army—and that possibility certainly exists—it naturally means the capitulation of the nation Britain would continue the war but that carries us so far into the realm of speculation that it isn't profitable

All this is by way of taking an honest look at the situation and isn't intended to run up the white flag for the gallant French

So long as the French army exists and the will to fight remains, France isn't beaten. Weygand undoubtedly will do his utmost to reach new lines of defense and carry on The British are rushing into France every ounce of help they can scrape up, even sending their home-defense troops.

This much we can say

If the general is able to pull his long line back safely in the face of this terrific German onslaught he will indeed have performed one of those miracles we have been hearing so much about.

BRICKER CALLS LEGISLATURE

Relief and Ballot Separation Among 5 Subjects To Be Considered.

By The Associated Press

COLUMBUS O June 14—The 93rd Ohio general assembly will convene in special session Monday night to act upon Gov Bricker's requests for $1 400 000 additional for poor relief $1 000 000 extra for old age pensions and separation of the state and national ballots at the November general election

Governor Bricker who issued the call last night said the proposals would be ready for introduction opening night and that the session should be concluded before the end of the week

Two Problems Stated

The governor's proclamation authorized the legislators to consider five matters

1 A $1 400 000 additional appropriation for poor relief to be distributed to local subdivisions as part of the state's authorized 50 per cent share of the burden for last year (State contributions from the original $10 000 000 appropriation for 1939 totaled about 40 per cent of the cost)

2 Appropriation of $1 000 000 to be matched equally by the federal government for old age pensions for approximately 16 000 eligibles now on the waiting list

3 An amendment to increase maximum old age pensions from $30 to $40 a month

4 An amendment to permit the state to use more than $800 000 federal money for aid to dependent children on a basis of 50 50 matching by the state

5 Separating the national and state ballots

Governor Bricker said he hoped the ballot separation could be enacted as an emergency measure to make it effective immediately Without the emergency clause requiring a two-thirds vote in both houses, the measure would not be effective for 90 days and would be subject to a referendum.

The ballot change he added would give voters "full and independent opportunity of express-

Lochner Reports Nazis Move Fresh Troops To Battle

(Louis P Lochner chief of The Associated Press Berlin bureau in a third dispatch to the front with the German forces sent the following dispatch by special courier to Bern from a unidentified point behind the German front line and thence by telephone to Berlin)

By LOUIS P LOCHNER

WITH THE GERMAN ARMY ENROUTE TO PARIS June 13—(Delayed)—Countless thousands of fresh German troops were being speeded into the zone of operations today as Dr Otto Dietrich personal press chief of Adolf Hitler rejected all talk of peace and said Germany's only aim now is to win the war

Addressing foreign journalists, Dietrich said

Germany is simply unbeatable no matter what may yet come The fuehrer towers high above all our enemies Nothing can avert their defeat and disaster

Ridiculing earlier assertions by the leaders of Great Britain and France that Germany would be forced to her knees, Dietrich pointed to Germany's present military position and said that complete victory was the goal

He said that peace might have been had before the war started at the price of the Polish corridor and of a plebiscite in the regions of Poland which the Nazi government claimed as German

Dietrich had just come from Hitler's general headquarters, at a secret place on the front As he talked the new troops marched looking fresh and confident and accompanied by the most modern equipment.

It seemed as if all city buses for miles along the German Dutch and German-Belgian borders had been requisitioned to move them speedily

While questions concerning exactly where the troops were going were met with an enigmatic shrug of the shoulder meaning it was a military secret I have the definite impression that Hitler while at present concentrating on Paris is also not leaving England out of his watchful eye

Photographic views of Paris appear on Page 17

GERMANS DENY HOLDING AMBASSADOR BULLITT

By The Associated Press

BERLIN, June 14—German authorities tonight denied a report, received from a source which is usually trustworthy, that U S Ambassador William C Bullitt had been placed in protective custody by German military authorities in Berlin The United States embassy here said it had no information on the subject.

Bullitt had remained in Paris during the German occupation with the approval of Washington, it was understood.

It was he who yesterday informed the German government of France's decision to make no defense of Paris itself.

FRANCE TURNS TOWARD U. S. FOR MORE AID

Reynaud Pleads for "Clouds of Warplanes" from Across Atlantic.

By The Associated Press

TOURS France June 14—As Germany's blitzkrieg scored sweeping progress today France turned frankly to the United States for help to rescue her from defeat

In particular she asked for clouds of warplanes from the United States now

The issue was put bluntly by Premier Paul Reynaud who urged the great American people to declare themselves against Nazi Germany

It is time for all democracies to repay their debt to France he said in a radio address to America and the world

Assistance permitted by American law previously asked and previously given is not now enough Reynaud intimated

Frances' Life At Stake

'Today' he said we are at a more advanced point Today the life of France is at stake—at least France's essence of life

"Our fight, each day more painful has no further sense if in continuing we do not see even far away the hope of a common victory growing

It is necessary that clouds of warplanes from across the Atlantic come to crush the evil force which dominates Europe

Despite our reverses the power of the democracies remains immense We have the right to hope that the day is coming when all that power will be placed in force

That is why we maintain hope in our hearts

Army Falls Back

The French army now withdrawn from Paris and falling back before the Germans along a wide front also has been the vanguard of the army of the democracies Said Reynaud

The world he said must know of the sufferings of France The world must know what they owe her The hour has come for them to pay their debt

'France wounded has the right to turn to other democracies and to say We have claims on you'

None of these with a sense of justice can deny this But it is one thing to approve and another thing to act

'We know what a high place ideals hold in the life of the American people Will they hesitate to declare themselves against Nazi Germany'

WAR DEVELOPMENTS AT-A-GLANCE

By The Associated Press

BERLIN—German armies march into Paris, high command says; other Nazi legions capture LeHavre, Montmedy; begin frontal assault on France's Maginot line; report "complete collapse" of French along 200-mile western front; Hitler order's three-day celebration.

TOURS, France—French high command admits fall of Paris "to save it from devastation," but says "our fighting continues in the greatest order;" government fleeing Tours; Premier Reynaud begs U. S. help

LONDON—British rush more troops to support French in fight south of Paris; R. A. F. bombs objectives in France, Norway and Africa.

MADRID—Spanish troops occupy international zone of Tangier, across from Gibraltar fortress, "to safeguard neutrality" of city; say other nations notified beforehand

WITH GERMAN ARMIES — Germany rejects talk of peace, Dr. Otto Dietrich, fuehrer's press chief, declares

ROME—Italians report French attack on Alpine frontier repelled; planes bomb French bases.

(By The Associated Press)

HITLER'S armies swept on past fallen Paris late today, striking 30 miles south of the Marne to Romilly, on the far upper (eastern) Seine, and stormed France's great Maginot line itself in a bold frontal attack

While Nazi troops marched through the streets of Paris—and Frenchmen wept at the conquest of their beloved capital—the German high command announced also the capture of LeHavre, vital French trans-Atlantic port on the English channel.

It was apparent tonight that the vast and supposedly "impregnable" Maginot fortifications were fast being flanked. Its northern bastion, Montmedy, already has fallen.

Poilus Beat Retreat

Dead tired French Poilus, many of them without relief since the battle of France started June 5, beat a retreat from Paris under the onslaught of the German avalanche—and awaited word as to where, how and even whether the battle is to go on

'If the fight goes on," said a heavily-censored dispatch from The Associated Press correspondent in Tours, indicating that France, wounded to the quick, may capitulate

There was no confirmation, however, of this

The Nazis tempestuous nine-day conquest of the French capital spurred Great Britain late today to unleash all the vast wealth of her war chest for the purchase of American supplies.

Britain To Give "All"

Britain will now go "all out," it was said, shifting her strategy from a long war—based on long hopes of ultimate victory through the financial exhaustion of the enemy—to meet the fury of the German blitzkrieg

Rapidly swarming German mechanized columns poured behind the main Maginot fortifications between Paris and Montmedy to imperil from the rear the 1 000 000 French Poilus manning the steel-and-concrete line

In case of an assault from behind it was not believed that the French could turn their Maginot guns around

Pursuit of the enemy until final destruction has now begun," the Nazi high command declared exultantly

French Government Flees Tours

The French government was reported fleeing from Tours presumably to take refuge in Bordeaux on France's southwest coast

The frontal attack on the Maginot line centered in the Saar region.

Montmedy northern anchor of the Maginot line has been conquered the German high command declared

Destruction of the 17 000 ton British auxiliary cruiser Scotstown and eight Allied transports off LeHavre and damage to six others was reported by the Nazi high command indicating heavy losses to British troops rushing to support their beleaguered French Allies

Madrid announced that Spanish troops had occupied the international zone of Tangier in the name of the sultan of Morocco "to safeguard the independence and neutrality of the city—which lies opposite the British stronghold of Gibraltar, guardian rock of the Mediterranean

It was not immediately apparent whether this action heralded the entrance of Spain into the fast-widening European conflict.

Hitler's legions began marching into Paris yesterday afternoon.

As they marched Frenchmen wept. And the outside world wondered whether the French defense was in reality shattered—as the German high command asserted—or whether they would rally below Paris to fight to the last corner of France" as Premier Reynaud recently vowed

U S Ambassador William C. Bullitt who flashed the first word of German troops entering Paris, was reported to have been placed by the Germans in protective custody

This prompted President Roosevelt to inquire Protected against what and whom?

Paris Dead City

Paris itself, the fifth largest metropolis in the world was a dead city Only a skeleton remnant of the once gay capital's normal 3 - 000 000 population remained—mostly behind shutter-drawn windows—while the rest streamed south over refugee-choked roads.

Premier Reynaud's urgent appeal to the United States for immediate help and "clouds of planes" elicited from President Roosevelt a statement to the effect that we are already sending all possible help"

Mr Roosevelt, informed that Hitler had called the possibility of a German invasion of the Americas "grotesque," pointed to the reichsfuehrer's record—and added that his remark could be enlarged on with dates and nations going

Vitt Amazed at "Revolt" Of Players Seeking His Ouster

Called in by President After Protests of Insincerity, Ridicule, Public Criticism.

By LARRY HAUCK
Associated Press Sports Writer

CLEVELAND June 14 — Manager Vitt of the Cleveland [illegible] facing possible dismissal in the aftermath of a mass revolt of his players for his ouster [illegible] conference with Owner Bradley today. The players carried their complaints personally to Bradley in what observers viewed unprecedented in baseball history. The president they could [illegible] long as Vitt remained charging him with ridiculing players and [illegible] criticism.

Bradley expressed amazement when [illegible] reporters of the proceedings at first believed it a joke declared he 'had no reason to believe any member of the team has any enmity toward Vitt.

Defends Self

"All you can say that I have not given 100 per cent in energy to baseball — the gray-haired pilot [illegible] I can't imagine what could have impelled them to do this. It looks as if somebody has been stirring up some trouble."

Bradley at first kept the meeting secret but later admitted "a few of the boys wanted certain things corrected."

"Naturally I am going to look into the matter," Bradley added, "but until I have investigated thoroughly I can't say what action will be taken."

The Indians confronted the president on their return from a disastrous eastern trip where they dropped eight of 13 games. He refused to list the players who called on him but it was learned authoritatively that most of the veterans were present. At least eight players were absent including veterans Roy Weatherly, Beau Bell and Al Smith and rookies Joe Dobson, Lou Boudreau, Ray Mack, Clarence Campbell and Mike Naymick.

They (the absentees) didn't want any part of the protest, a spokesman for the group declared, and we were glad they didn't. We felt Bradley would be more impressed by the testimony of the fellows who have been around long enough to know what they're talking about."

Bob Feller considered by some the best pitcher in baseball was present at the meeting, one of the veteran players said.

"We are a good ball club and we've got a chance to win the pennant but if he (Vitt) manages the team all year we'll be lucky to finish fourth," one player said.

Several incidents on the recent eastern trip were reported to have brought the complaints to a head and led to a discussion in a Boston hotel that resulted in the Bradley interview.

In one Boston game Feller was being hit hard and some of the players described Vitt's verbal reaction thus:

"Look at him! He's supposed to be my ace. I'm supposed to win a pennant with that kind of pitching."

Al Milnar with eight victories and Hal Trosky slugging first baseman also were loudly criticized by Vitt on the eastern tour players said.

In the event Cleveland officials fire Vitt it is believed that Coach Luke Sewell, former Indian catcher will assume at least temporary charge of the team.

Ohio's Joe Scott To Seek His Third U. S. Decathlon Title This Week-End

By The Associated Press

CLEVELAND, June 14 — If any one takes the national decathlon title away from Western Reserve's Joe Scott this week-end, Big Bill Watson is figured the man to do it.

Even some of the Ohioan's closest admirers calculate the former University of Michigan track captain will spoil Scott's bid to become the second three-time champion.

For two years Watson was Western Conference titleholder in the broad jump, shot put and discus and marks established by the sturdy Negro in five of the gruelling ten events surpass anything done by the wiry Scott.

Joe, himself, shown in the accompanying pictures, has no idea of the outcome. He triumphed the last two years by all-around proficiency—except for mediocre performances in the 1,500-meter run — rather than by spectacular performances in any one event. But decathlon scoring is such that it greatly rewards outstanding performers in an additional event.

An arbitrary standard is set up for the 10 trials with points awarded on the basis of how you do against present marks.

A decathlon performer may take firsts in several events but if the time or distance is just ordinary may lose the meet to a couple of near-record marks in other events.

Besides Scott and Watson, eight other versatile amateur track stars are in the race. Five events will be held Saturday and the other five Sunday. Only Harold Osborn, former University of Illinois ace has won the decathlon three times.

Scott amassed 6,671 points to annex the 1939 championship here 175 more than his winning total the year before at Randalls Island, N. Y. Watson did not enter either year in the decathlon 'man killer' program which includes 100, 400 and 1,500-meter dashes, 110-meter hurdles, pole vault, high and broad jumps, javelin, discus and shot put.

OSGOOD PITCHER HURLS NO-HITTER

Moak Blanks Defiance Team; Democrats Edge Key Town.

Tight pitching prevailed in all games of the Industrial league last night. Harry Moak, Osgood pitcher, pitched a no-run, no-hit game against the Defiance team while his teammates were chalking up five runs.

The Young Democrats won a 1-0 victory over the Key Town squad. It was a pitchers' battle between Millisor of Key Town and Primmer of the Democrats as both teams played errorless ball. The Democrats pushed their lone tally over in the third inning.

At Presidents field the powerful Steam Shovel team came out on top of a 3-2 score against Union Bakery in eight innings. Both teams were tied 2-2 going into the eighth while the Shovel pushed the winning run across. Although the bakery boys had twice as many hits as the winners they were unable to put them together for runs.

Huber had little trouble defeating the Schlairet squad 4-2 at Garfield park. Pitcher Walters of the Huber team managed to keep his opponents hits scattered.

Harry Short's victory in the Isaly Dairy 2:20 trot came after his mount, Basil Hanover, finished fifth in the first heat. He took the field of seven, 3-1-1, clocked at 2:09¼, in the fastest mile. Haydale looked good in the first round but suffered a disastrous break in the home stretch and H. F. B. came upon the outside to win. Short got his entry away good in the second and was never topped through the second or third heats. He won the second in a neck-and-neck finish with Paydale and beat off the same competitor to win the third by a length.

Starting new, Guy Volo outclassed the field of nine to win the first heat of the Market & Lewis 2:19 pace and then finished fifth in the second to take the race. They came home five in a bunch with Guy Volo leading the way in the first. The second heat went to Basil Hanover (Parshall) who raced ahead of Isabelle Gratton, Louise Reynolds and Guy Volo in the second trip around. It was the first and only heat won by Parshall, who the previous night had swept virtually everything in sight. To Miss Short went the Market & Lewis trophy presented by Paul F. Market.

In Star Handicap

Heavily favored to go to the post the week's feature in the Marion Star handicap pace. In spite of facing heavy odds in the field of 11, H. B. Rex had little trouble bringing H. B. G. in 1-1. He let the pacer set the tempo in the first trips around the oval and then swept by them to win a pair of close decisions. Delmas Wilson, circulation manager of The Star, presented the winning trophy to Driver Flaxico.

Horses owned in this section didn't fare so well. Peter Patch (Smart), the property of Mrs. Catherine Diehl of Marion, finished 8-4 in the handicap race. Bright Bubbles (Smart), owned by Joe Neville of Delaware, was in the money, 2-4-4, in the 2:20 trot.

Last night's returns at the parimutuel windows were short, with the exception of place bets on Pound Sterling in the initial heat of the 2:19 pace, which paid $82 for $2 and the daily double on the first heats of the 2:20 trot and handicap which refunded $51.20 for $2. Heaviest pay-off for a winner was the $21.40 for $2 returned on Guy Volo in the first heat of the 2:19 pace.

Outrider for the session was 11-year-old Earl D. (Ted) Michel Jr., son of Marion county's prosecuting attorney. He was astride the Michel-owned American Actor.

TRADE OUTLOOK HELPS MARKET

Stocks Stage One of Best Rallies Since Relapse Last Month.

By The Associated Press

NEW YORK, June 14—Domestic business prospects overshadowed bearish war news in today's stock market and leaders put on one of the best rallies since the May relapse.

With steels in front gains of 1 to 3 points were widely distributed after a slightly lower opening.

Offsetting war news was the belief the market was "oversold" in view of the earnings picture for numerous industries that stand to benefit from defense spending.

Bonds and commodities turned up with stocks.

Conspicuous shares on the advance were U. S. Steel, Bethlehem, Chrysler, General Motors, Douglas Aircraft, Great Northern, American Woolen preferred, International Paper & Power preferred, Loft, Anaconda, Smelting, Du Pont, Press Steel Car and American Car & Foundry.

It was believed profits for the reclaimers in the current three months would run from 10 to 20 per cent above the initial quarter.

BRISK BUYING SENDS GRAIN PRICES HIGHER

By The Associated Press

CHICAGO June 14 — Wheat prices scored gains of as much as 2½ cents and corn rose 3¾ cents today as brisk buying developed in the trading pits here.

Excellent market operations resulting partly from removal of the maximum levels on grain prices which had been in effect for almost four weeks were witnessed. Trading was at a brisk pace at times.

Much of the gain scored by wheat and corn was retained until the close despite frequent setbacks and rather nervous price fluctuations after the early highs were established.

Wheat closed 1 1¾ cents higher than yesterday; July 79½, September 80 80¾; corn unchanged to 2¾ higher; July 61¾, September 60 4 ¾; oats ¾ 1¼ lower; soy beans 5 8 lower and rye ¾-1¼ lower.

The Stars Say—

For Saturday, June 15

A day of promise and promotion is read from interesting mutual and lunar aspects. The energies will be splendidly stimulated to push forward into fresh channels, with new propositions of major importance attracting the ready support of employers, superiors or others whose promotional cooperation is needed. Initiative and enterprise, with well-developed methods of improvement and innovation, are sure to enlist financial support from big business interests.

Those whose birthday it is may be confident of putting over rather important and tact are recommended rather promising programs, with the substantial cooperation of those in financial condition for promotion. But such propositions must have the element of the fresh, novel and entirely practical and constructive. It is a time for launching worthwhile projects that will stand the test of merit, and while the friendly aid of superiors and employers is imperative they may have to be approached with tact rather than insistence or boldness.

A child born on this day may be aggressive, audacious, high strung and impetuous in a combination that may prove its self-undoing unless trained in tact and diplomacy. Its quick temper and lack of moderation should be disciplined.

Daily Pattern for Home Use

By ANNE ADAMS

SCALLOP-YOKED PRINCESS DRESS

PATTERN 4440

Summer-bound for gay times is this cool-as-a-breeze frock, Pattern 4440. Anne Adams has knowingly designed it to appeal to a young girl's fancy, with fluid, willowy princess lines that may be stitched up in a hurry with the Sewing Instructor's aid. The front panels are curved at their tops to give a scalloped line to the yoke. Could anything be younger than that squared-off neckline? Make the sleeves in breezy, wing-like flares—or have them in pretty, band-finished puffs. Lace edging, a ribbon bow and buttons. You might like the yoke and sleeve-bands or short flared sleeves in lovely contrast. Do order this pattern today!

Pattern 4440 is available in misses' sizes 12, 14, 16, 18 and 20. Size 16 takes 3¼ yards 39 inch fabric and 4¾ yards of lace edging.

Send fifteen cents (15c) in coins for this Anne Adams pattern. Write plainly size, name, address and style number.

Cut a smart figure in the summer fashion picture. Make your new wardrobe from the original designs in the Anne Adams Pattern Book. A colorful forecast of summer 1940, it includes styles for country and city dweller, "pocket edition" youngster and "forty-plus" matron. There are gay sport clothes, dance frocks, cool prints and cottons for vacations by land, by sea by air. Of course the summer bride has not been forgotten. Send today! Book 15 cents. Pattern 15 cents. Book and pattern together, 25 cents.

No Longer Awakens Feeling Tired As The Night Before

Alliance, Ohio, resident says since Vendol relieved constipation, enjoys restful sleep and is ready for day's work. Advises every one to try "Vendol."

Vendol grows more popular every day as substantial local citizens relate how it has helped them and give their advise to others suffering the same way to try this famous medicine made from extracts of Nature's Roots and Herbs with Alkalines added for extra benefits.

Mrs. Wilson Ramsey, living on R.D. 1, Hibbetts, Ohio, near Alliance, says, "I suffered almost daily from constipation which upset my stomach so that gas, bloating, sourness, and acid risings, made be very uncomfortable, and also made my nerves quivery so that my sleep was often light and disturbed. I lay awake by the hour some night; then next morning would get up feeling washed-out like I couldn't do the day's job. I began taking Vendol a few weeks ago and it helped me at once, so I kept it up and got marvelous relief from constipation; then the other troubles just gradually disappeared till now I'm feeling just fine again. I advise every one needing a medicine like this to be sure to get Vendol, because it will help him."

Vendol is sold and displayed by all leading druggists.

KIWANIANS HEAR MARION PILOT TALK

Carl Danner Jr., Air Corps Student, Talks on Aviation.

A talk on aviation in college and in the army air corp by Carl Danner Jr. was the feature of the luncheon meeting of the Marion Kiwanis club at the Marion Hotel Thursday. Danner recently received a pilots license from the Civil Aeronautics authority at Ohio University and will leave the latter part of this month for nine months' training in the army air corps.

In describing the civil aeronautics authority course he said that out of 11,000 students in over 400 colleges throughout the United States that took it, 30 failed and one was killed. Next year this program will be increased to include 30,000 students.

Danner said that one out of eight persons attempting the army course fail. Those who pass are given commissions in the army reserve corps with active duty. The army air corp will train 150,000 men next year to handle the 50,000 planes that have been ordered, he said.

An induction service for W. M. Preston was in charge of C. E. Williams. Dewey Boyer presided as chairman of the meeting and C. A. McGrew, president, introduced Rev. Philip Auer of Galion, former governor of the Ohio district of Kiwanis. Mr. McGrew left immediately after the meeting for the international convention of Kiwanis in Minneapolis.

Dr. F. A. Stengle displayed an iron cup that was attached to the Marion court house water pump in 1840. He said that in 1860 it was reported missing and it was only recently found.

A contest open to club members was won by J. J. Huebner.

Guests yesterday were Jack Danner and K. Trenner.

HOME PLANNERS URGED TO CHECK ON TAX RATE

The tax rate and the assessments which will be levied upon prospective home builders should be carefully checked, government experts advise.

Unless taxes are to be reasonably low, and unless it is certain that large assessments will not be required for streets and similar items, another neighborhood should be considered.

There are cases, however, when it is perfectly sensible to buy in a subdivision which is not fully improved and the price of the lot is correspondingly lower than that asked for in a fully improved neighborhood.

If the property is to be improved, legal guarantees as to the amount of special assessments should be requested.

Nearly a million dollars' worth of diamonds are used annually by automobile builders for boring, drilling and finishing parts.

BEAVER PESTS THREATEN
By The Associated Press

ASTORIA, Ore.—Hundreds of mountain beaver are sweeping Oregon forestry department's 1,000-acre model nursery. The pests (not the protected fur beaver) ignore poison baits, and Clatsop county authorities fear bounty offers would bring a flood of pelts from other sections. Charles Henrys, county timber cruiser, estimated the beaver had damaged 80 per cent of the 400,000 young trees in the nursery.

MIXED foursomes, played Sunday afternoon at 3 o'clock will feature Father's day at the Marion Country club. Families may make reservations for dinner at the club or may take picnic dinners for the occasion.

PRE-VACATION CHECK OF HOME SUGGESTED

Inspection Needed Before Closing Up Premises.

Families that contemplate closing up their homes in the summer and moving to the country or to the seashore should make a careful house inspection before it is vacated, builders suggest.

A check will reveal what precautions should be taken to guard against any possible damage during the family's absence.

Roof Check Important

An examination of the roof for leaks is important. Sizable damage may be prevented if small precautions, such as cleaning out gutters and downspouts, are taken.

All rubbish should be gathered up and burned, particularly accumulations in basements and attics. Piles of paper, rags, shavings, and similar discarded material sometimes cause fires by igniting spontaneously. It is wise to put all matches in glass, metal, or earthen containers or, even better, to remove them entirely from the house. In addition, all gasoline, oil and paint cans should be removed.

As a final precaution, all doors and windows should be closed and locked. If there are any blinds or shutters on the house, they should be closed and locked as an extra protection against intruders and as a protection for windows during heavy summer storms. The cellar door should be securely bolted.

Marriage Meddlers

By ADELE GARRISON

Madge Is Elated at the Happy Outcome for Mary and Noel.

THAT OLINA'S announced intention of speaking to me was only a subterfuge designed not only to leave her mother and Philip Veritzen together, but to facilitate her own escape to the sanctuary of her room, I knew even before she came up to me and murmured her pretty, perfunctory query.

"Dear Mrs. Graham, I want to know your verdict, too. Did you really approve my performance, and are there any hints you can give me?

I smiled at her in friendly fashion, for I could see there was no further need of disciplining Olina. That word "sister," from Philip Veritzen's lips, defining, with significance, as it did, her future relationship to Noel, had deflated her! I saw also that she was fairly ill with humiliation and disappointment, and longed for the privacy of her own room before her mother should come up.

"I approve most emphatically," I said, "and I have no hints at present. But you and Mary have had a grueling forenoon. I prescribe naps for both of you."

A look of relief flashed over her face, and she spoke swiftly.

"I think I shall take that prescription immediately," she said. "Thank you."

She hurried away, and nobody spoke until she was out of sight and hearing. Then Mary swept me a little obeisance.

Time for Celebration

"Mebbe you think you're going to send me to bed, too," she said, "but nothing doing with this child yet. Me, I'm going to celebrate, but I don't know just how."

Lillian looked at her flushed face and too bright eyes with shrewd kindness.

"Right you are, girl," she said heartily. "You're sure entitled to a celebration, and we'll join in, but we can't just yet for the Chief wants us old folks in a conference pretty soon, a conference which I suspect you may be asked to join a little later. Pretty important business it is, too. I fancy the Chief is going to draw in the net shortly. Now, of course you don't want to go to bed, but I think if Noel would take you up and have you get into something loose and lie down on the couch for just a few minutes while he holds your lily white hand and reads or sings to you, it might be a very good preparation for both the conference and the later celebration. You're more tired than you think you are."

"Come dearest!" Noel pleaded, in answer to a gesture I sent him. "You shall get up whenever you say the word, but do rest just a bit first."

"Oh! all right," Mary said with sudden surprising docility. "I could do with getting these shoes off at that."

He took her away on that, and we watched them climbing the stairs, the same emotion swaying each of us, a feeling of relieved thankfulness that there was no more unpleasant problem confronting the young couple of whom we were so fond.

"And that's that," Dicky said, his voice muted and one eye on the closed library door, although from our position far down the hall, neither Philip nor Olga could have heard us. "I still haven't the slightest idea how it happened, but the result is plain. The troubles of those two kids are behind them."

Never Borrow Trouble

I did not dare to look at Lillian but I felt sure that she was echoing my mental doubt of Dicky's dictum. True, I was confident that Philip Veritzen was eliminated as a troublesome factor in the problem of his son and his daughter-in-law, but deep within me was a little foreboding concerning the future of Dicky's beautiful and rarely gifted young niece and her idolatrous, temperamental husband.

But I shook it off determinedly with a reminder that the old proverb spoke of the evil being sufficient to its day. I would not borrow trouble, I told myself even as Dicky clipped me round the waist and kissed me warmly, and Harry saluted Lillian in similar fashion.

"Why the sudden ardor?" Lillian demanded mischievously.

"Oh! Just because you're such darned good scouts," Dicky explained. "That's your second installment, and you needn't do another good deed today for it. And now, whither away?"

"I must stay here until Philip goes," I said. "Obligations of a hostess and all that, you know."

"Including royal etiquette," Dicky gibed. "Well! good luck! I'm off!"

"So say we all," Harry said, seizing Lillian by the arm and rushing off with her. But I was glad I had lingered, when after Philip Veritzen and Olga had come out into the hall, and Philip had taken his leave, Olga laid a compelling hand upon my arm.

"Dear Madge!" she said. "Could you spare me just a moment or two. There is something I must ask you."

2,800 See Little Pat Win Short Ship Feature Race

Biery-Owned Horse Adds To Past Laurels; Plaxico Drives To Victory in Star Handicap.

By CHARLES HOSTETLER
Marion Star Sports Editor

LITTLE PAT, bay gelding star of the Biery Farm, Butler, Pa., helped history repeat itself by winning the race of races on last night's Short Ship program at the fairgrounds.

Holder of no less than nine world's records and post-time favorite, the bay came under the wire second in the initial dash and then won the last two heats. The final mile was clocked at 2:03¼, just one-fourth of a second off the 12-year-old track record posted in 1928 by Grattan Bars.

Charley Lacey, above, squired Little Pat to victory in the featured $1,000 free-for-all pace on last night's Short Ship program at the fairgrounds.

Again it was the veteran sulky-rider, Charles Lacey, handling Little Pat. He was up when the star turned in an identical performance last year to win the same Houghton Sulky Co $1,000 free-for-all pace.

2,800 In Crowd

An estimated 2,800 spectators saw the race, bringing to 6,800 the total attendance for the first three sessions of the four-night program. The meeting will draw to a close with an attractive three-race card tonight.

Harry Short of Columbus, "the man in white", tutored a pair of winners. He drove his horses in the twin victory, Basil Hanover copping the Isaly Dairy 2:20 trot, 5-1-1, and Guy Volo sweeping the Markert & Lewis 2:10 pace, placing 1-5. The Milwaukee entry, F. R. G., driven by Bob Plaxico, won the Marion Star handicap pace 1-1.

Tonight's three races offer purses totaling $1,300 and consist of nine dashes. Twenty-two horses have been nominated, eight each in the 2:16 trot and classified pace and six in the three-year-old trot.

Of special interest will be the trials of several horses which are candidates for this year's Hambletonian. Jim Neville, namesake of his owner and from the Delaware stable of Wayne Smart is among the eight named for the Hotel Marion 2:16 trot.

Half of the six starters for the Old Fort Mills three-year-old half are "Ham cans" the abbreviated term given to possible starters in harness racing's richest event at Goshen, N. Y. The trio includes Danville Anna (Parshall), Pronto Hanover (Dennison) and Remus (Short).

A special classified pace, named for the Jim Dugan store, rounds out the closing show. It was organized for a group of horses which have not previously gone to the post during the meeting here. Eight are entered.

Hotly Contested Heat

Starting from the outside in a field of six, Little Pat had a tough time of it in the first heat of the free-for-all. It was Chief Counsel Callie G., Miss Budlong and the favorite running fourth, as they flashed past the quarter pole in :33. They came past the stands on the first trip in that order, timed at 1:01. Chief Counsel just managed to stave off Little Pat's rush for the wire and that was the finish, clocked in 2:06.

Callie G paced the field through the first half of the second heat. They tripped the quarter in :32, the half in 1:04. From there on it was all Little Pat, the field battling for other money spots, Chief Counsel finishing second and Callie G. third. Time 2:04½.

From start to finish the Biery-owned bay was in front of the pack in the third mile. Never once was Charley Lacey's lead seriously threatened. Miss Budlong and Chief Counsel fought it out for second, with the latter, handled by Karl Becor, taking

Get In the Swim

By JOHNNY WEISSMULLER
Former World Speed Champion

(Third in a Series)

Though there is considerable debate among foremost swimming coaches as to the first stroke which should be taught the beginner, I am an advocate of the simple dog-paddle, in shallow water. Perhaps that is because I, myself, first learned to swim with that stroke.

Practice this dog paddle in water about three or four feet deep. Just become used to the buoyancy of the body at first. This instills confidence, and if you have learned the secret of breathing, you won't choke if your nose should go under water.

Obtain momentum just by paddling with the hands as if propelling a surfboard. It's the same thing, except the body is the board. Bicycle with the feet. After you have learned this simple propulsion and overcome any fear of sinking, develop the breast stroke. With any sport, of course, it is desirable to have an expert teach the finer points, and no novice swimmer can hope to become a champion just by reading about the various forms of strokes. Once you have learned to stay afloat and propel yourself, get someone who is a good swimmer to teach you the side-stroke, the crawl, or whatever you want to learn next.

Hall and Ketonen Billed For 90-Minute Battle at Shovel

Misses Burke and Gillem Also Set for Return Scrap on Monday Night Card.

Stacey Hall of Columbus and Paavo Ketonen of Finland, who battled to a 45-minute draw on last Monday's wrestling card, have been re-matched for the 90-minute main go next week, local promoters announced today.

Coming up for a special one-hour battle is a scrap between Miss Mildred Burke, Kansas City's claimant to the world's feminine crown, and Gladys (K...lem) Gillem of Birmingham, Ala. Mildred will put all her claims to the women's title on the block in answer to Gillem's challenge for a return meeting.

Uses Dubious Tactics

They faced each other here two weeks ago, Burke winning over the "blond tigress." Gillem, however, was being stopped repeatedly for use of questionable tactics and popped off steam to the effect that she was the rightful winner but couldn't beat both Burke and the referee. The return engagement should be a worthwhile attraction.

The Hall-Ketonen meeting will be nothing less than a continuation of their 3-minute deadlocked battle of last week. This time, since they go to bat over the longer 90-minute route, fans should be rewarded with a winner. Their first meeting was a crowd-pleasing affair and there is every reason to believe the second will duplicate it.

The Finnish warrior appeared to have an advantage over the former Ohio State star in their previous meeting. He worked on Stacey's left arm with key and hammer locks and had it almost useless as the match moved into the final stages. Hall did a bit of sobbing into the ear of Referee Clete Kauffman, for which he got nothing but a tuneful raspberry from spectators.

Prestige Suffers

Both grapplers turned in great jobs of countering and blocking each other's best grips. Hall, however, lost no little prestige when he did a bit of rope crawling to get clear of Ketonen's better holds. Their match will be the final of three scheduled on next week's show.

Indian Barfoot, an importation from Canada and a protege of the Sioux chief, War Eagle, is due to make his bow here in the preliminary. He will meet trial-horse Ned Taylor of Louisville, Ky., in the 20-minute curtain-raiser.

Plans are going forward to hold the matches at the Uncapher ...ena outdoor arena, promoters reported. In the event of inclement weather, however, the session will be held at the Marion Steam Shovel gymnasium.

INDIANS TAKE 2ND, EDGING TIGERS, 3-2

Gehringer's Double Error Lets in Winning Run.

By The Associated Press

The Cleveland Indians and Detroit Tigers staged a red-hot interlude yesterday while the other clubs were traveling and the Indians eventually triumphed 3-2 in ten innings.

The victory lifted the Tribe back into second place and gave Lefty Al Smith his sixth victory against one defeat, although he gave up 13 hits to the 10 collected by Cleveland.

Detroit's ragged efforts caught up with them in this one. Charley Gehringer hit a home run in the first and the Tigers got another run in the second. They had scoring chances in almost every inning thereafter they loaded the bases with none out in the ...

Then Cleveland came to bat and Roy (Beau) Bell doubled. With two out Ben Chapman, who previously had tripled, doubled and singled, rapped an inconsequential grounder to Gehringer who made two separate errors on the same play and let in a run.

TRADITIONALLY AMERICAN

The gold seekers of a century ago "panned" many a ton of gravel for every ounce of precious metal they secured. Today the "gold panner" has passed from the American scene. Scientific geologists locate ice gold before diggin' is begun. Modern equipment and techniques produce "pay dirt."
SPECIAL BREW BOHEMIAN
WIEDEMANN BEER

Someone has called beer "the liquid gold" among beverages. Perhaps you have used the methods of the "forty niners" in your search for the perfect beer . . . sampling many a "stream" and testing many a brew . . . and you are still unsatisfied. Try just once again . . . the scientific way. Try Wiedemann's. As an expert judge of fine beers you, too, will say that Wiedemann's is the "Bonanza" . . . the "seek-no-further." On draught and in bottles at the best places everywhere. It has the "taste you remember with pleasure."

National Guards Sandwich Drills into Daily Routine

By The Associated Press

CLEVELAND — Almost nightly, Ohio national guardsmen talking in the clipped speech of the military gather in the Cleveland area's nine armories for drill.

About 1,200 troops—all wage earners, professional or small business men — have been training like this since the World war. But public interest in this grim business seemingly has been aroused only recently by America's preparedness program.

During the day these men clerk in groceries, sell automobiles, work as electricians, mechanics, builders, in offices, pursue professions. Once a week they don uniforms, study defense and attack, talk of guns and tanks.

Each year they have spent two weeks in training camps, but this year they'll be in camp three weeks.

For a close-up of these citizen soldier units take the headquarters company of the 145th infantry as an example. In peacetime it has full strength of three officers and 125 men. In time of war it would have 210 men.

The company has three platoons—the anti-tank consisting of three sections of two guns each; communications which embraces radio, wireless key and telephone operators, code men, messengers, chauffeurs and truck drivers and headquarters which has the cooks, clerks, tailors and cobblers.

The 145th's anti-tank men still drill with the one inch howitzers of the World war, but they'll soon have new 37 millimeter anti-tank guns. New Garand rifles soon will replace the World war bolt action type.

Landing Contest for Pilots Of Area Planned for Air Show

Event To Open Busy Afternoon of Stunts at Marion Airport on June 23.

Plans for a spot landing contest in which amateur pilots from Marion and nearby cities will compete were outlined last night at a joint meeting of the Marion Aviation Boosters club and the Junior Chamber of Commerce sponsors of the air show to be held at the Municipal airport Sunday June 23

Harold "Dick" Dickerson, president of the club and chairman for the contest estimated that at least 25 private fliers, many of them from Marion will compete First prize will be a large gold triangle trophy which Mr Dickerson will present personally Cash prizes will be awarded to second and third place winners

The landing contest, a test in precision flying, will be started at 12 30 p m, in advance of the regular part of the air show which is scheduled for 2:30 The contest will require about an hour and a half depending on the number of entries

Pilots of Area Invited

Invitations have been sent to several nearby towns including Galion, Bucyrus and Mansfield and a number of others

Other contests featuring local fliers are also under consideration

Plans for this and other features of the show were reviewed by Alvin Doc Freeman general chairman for the show when 35 members of the sponsoring group held a business and social meeting at the Jaycee headquarters. The program last night also included presentation of motion pictures on Ogegon

Mr Freeman reported that some 12 top notch acts are being lined up for the show Two nationally known stunt pilots have already been signed and others will be announced next week All the *pilots will be top ranking* aerobats who have competed regularly in the National Air Show at Cleveland and in other major events The show here is expected to compare favorably with the Cleveland event which incidentally will not be held this year

Other Events Booked

In addition to acts described in previous stories there will be a 10 000 foot delayed parachute jump and another type of jump smoke trail flying all sorts of *aerobatics, many performed dangerously* close to the ground Speeds will range up to more than 400 miles an hour

The program excluding the spot landing contest will last about two hours and a half

Plans were also announced today for ticket sales and seating arrangements Tickets will go on sale today at the Triangle Grill at 454 West Center street and at other uptown places later Some 2 000 bleacher seats will be erected west of the hangar and in front of them will be about 500 chairs as reserved seats

Safety Precautions

Safety of the spectators will be an all important factor They will be kept away from the part of the field where the stunting will be staged Likewise no stunting will be permitted over automobiles which will be given ample parking space at the port All roads leading to the port will be blocked *off for a considerable distance so* that only persons with tickets may *get close*

There will be a public address system installed with Hugh Thomasson of Chicago technical director describing the events to the spectators as the show progresses

CHAPTER 29
The Mexican Quarter

FRANK S sister Ruth took Jan in charge when she arrived in Los Angeles

'What can you do" she asked Jan

'Well Jan smiled albeit forlornly I do know how to cook and keep a house

You've probably had your fill of that Ruth pursed her full rouged lips and frowned You might go down to Olvera street in the morning and see if you can line up anything there I noticed a place or two that employ artists to do portrait sketches for the tourists and sightseers Would you like that'

It sounds fun if I could do it I'm not particularly adept at sketching people though at least I don't think I am How about letting me try a sketch of you Miss Cronin?'

Ruth took off her hat and ran strong well-kept fingers through her mass of dark hair Fine she said What must you have in the way of materials?

'A sheet of white paper and a soft leaded pencil will do She pulled off her beret and hung her short white jacket over a chair while Ruth hunted pencils

The sketch finished 20 minutes later, surprised both of them with its excellence Flattering too, Ruth laughed which should bring you customers or do you call them sitters? Sign it and take it along as a sample Ever been to Olvera Street?

No I've heard of it though Isn't it called a street of old Old Mexico?

It's authentic Mexican gone tourist Ruth said Still it's very foreign and enchanting and the ancient adobe buildings are marvels of endurance and solidity Wish I could go with you yet you'll probably enjoy discovering it for yourself Be sure to peek and poke into every shop See them blow glass miniatures and dip candles and make tortillas and weave sombreros and baskets

I think I'd better go to bed before I become too excited to sleep

You don't go to bed here Ruth smiled pointing to a pair of discreetly draped French doors The bed comes to you when you swing it out of the wall and pull it down after you move forty dozen rugs vases and end tables

At Ruth's urging Jan stayed on with her a few days They were interesting exciting days filled with exploration of new and strange and exotic places She found herself intrigued by the short tiled street called El Paseo Olvera for it was by far the most colorful place she'd ever seen in her life and she loved color gaudy or subdued just so it was in its rightful place Palm and olive trees grew in the street and gay awnings were suspended over vari-colored shop doors The vendors, shopkeepers musicians, artisans candlestick makers were swarthy Mexicans who spoke fair English to patrons and gabbled among themselves in dialect And sure enough in a small side patio she found rows and rows of tacked up sketches of movie stars and other well known people with signs advertising portrait sketching for fifty cents in fifteen minutes

One Old Ore Young

On her first two visits Jan just drifted in and out of the shops browsing loitering drinking in the vividness hungrily She bought two perfumed candles for Ruth a pair of white maracahas hand-woven slippers for herself a gay pointed-crown beach hat for Norma and a box of sticky sugary pralines for Lance

On her third trip to Olvera Street she went into the little art store which to her surprise she found wasn't little at all but extended way back into dark, musty depths where a woodcutter whittled and planed images from precious Lebanon Cedar The owner of the place was a small dark man with quick eyes and very white teeth who spoke excellent English He told her he had two artists now and did not think the trade would support another She smiled admired some of the really lovely old prints and oils he kept in a special room They had come he said from ancient missions in the heart of Old Mexico

The interview ended when he agreed with a shrug to allow her space on one side of the sunsplashed patio He was to receive fifteen cents out of every fifty she made

Her fellow artists whom she met at once were two men, strange types to her one old and one young Both of them affected paint-splotched smocks flowing ties and pancake berets—picturesque if a bit too atmospheric Carlos Mantz, the older one also affected a small gray sprinkled Van Dyke and a smelly briar pipe He had fallen to this sidewalk vending he mourned to Jan gesturing melodramatically because the demon arthritis had so crippled his hands he could no longer paint his exquisite masterpieces.

Tripe' said Angus Lorry the younger one, to Jan out of old Carlos hearing He never painted a work of art in his life That's just a sob story he hands out to the gullible public A good one too he admitted grudgingly He often gets double and triple his fee and his portraits are lousy! Say why are you trying this racket? For fun or for money?

Money she assured him I like to eat as well as anyone else I won't mind though if some fun comes along Is it likely to?

Depends on you he said obliquely

Despite his effective getup he looked not at all like an artist but more like a farmer boy on a holiday He couldn't be more than twenty-three or four Jan decided He had crisp sandy hair a snubby freckle spattered nose and a square bony face upon which he strove to wear an expression of worldly cynicism He was short and thick and he had broad stubby fingers But she decided after seeing some of his work he had a very real and genuine talent especially for caricature

Although old Carlos seemed to resent her coming Angus welcomed her 'The sort of people who'd let a girl sketch them because she's young and pretty wouldn't come near me or Carlos anyhow You won't take any bread out of our mouths I venture to say he told her

Smock And Beret

The first morning of work she turned up in her yellow smock and white beret her immense blue eyes wide with anticipation, her golden skin flushed rosily She learned that the proprietor in return for his commission furnished pencils and white drawing paper a chair for the person who posed and a good solid drawing board on a stand

Jan's first patron was a timid middle aged man who'd had a secret yearning for years to be sketched but somehow never found the courage until he wandered by and met Jan's quick, sweet smile.

He gave her a dollar for the sketch eyed it as if it were an original Rembrandt, and scurried off a smile of pure delight on his timorous pinched face

The three artists worked intermittently, dropping the coins into smock pockets resting, not talking much between times By dinner time that night Jan felt more oriented to this new world, so far away from Sea Tide and the red house and all her problems and worries. Even Derek seemed part of a long ago yesterday

Angus took her into the Cafe la Golondrina for dinner, ordering the cheaper Mexican table d'hote with red wine instead of the more expensive Spanish dinner The lights were dim and candles sputtered on each narrow table made of narrow polished planks Half through the meal an orchestra took its place on a stage in one corner and played Mexican and Spanish folk songs The place was crowded, colorful and fascinating to Jan who watched everything with avid eyes

Later Angus led her up a stairway to a small dance floor above where another orchestra played rhumbas tangoes and other dance music Angus danced well enough and it was stimulating Leaving he said without the least self-consciousness 'Your half of the check is sixty cents"

Jan sorted some change out of her pocket and handed it to him. Then they went back to work until midnight when the crowds thinned and the shops began taking in their wares

Reckoning profits and commissions with Gonzales, the proprietor she found she had netted over four dollars. Gonzales seemed more surprised than she He nodded wisely 'It's because you're so pretty muchacha so eager and like a—a bright new candle

That said Jan 'is meant I judge to be a grand compliment'

'Of the finest Angus assured her grinning

He walked to the streetcar with her and asked her why she didn't take a room a few blocks away in the Mexican Quarter where a number of artists and writers and poets had established a miniature Greenwich Village Cheap rent cheap food and stimulating company he asserted

And so the next day Ruth drove her down early inspected and approved the little box-like room with its bare floor and bright drapes and flower pots in an old brick hotel near the Plaza She demurred although Jan had said little that the girl needed a change badly a chance to assert herself as an individual

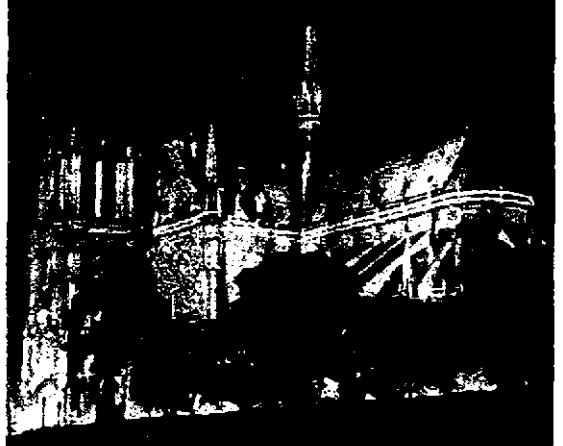
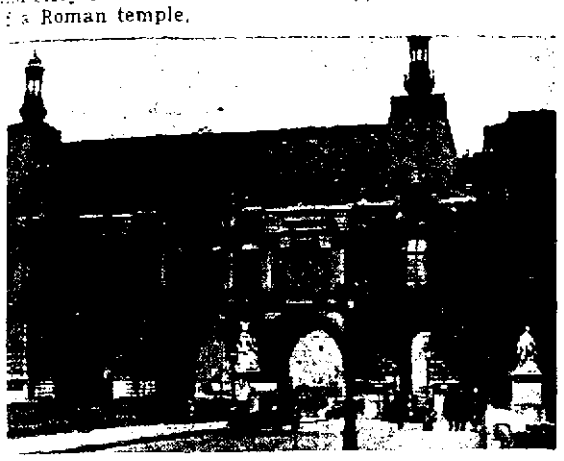
PARIS -- This Is the Heart of France

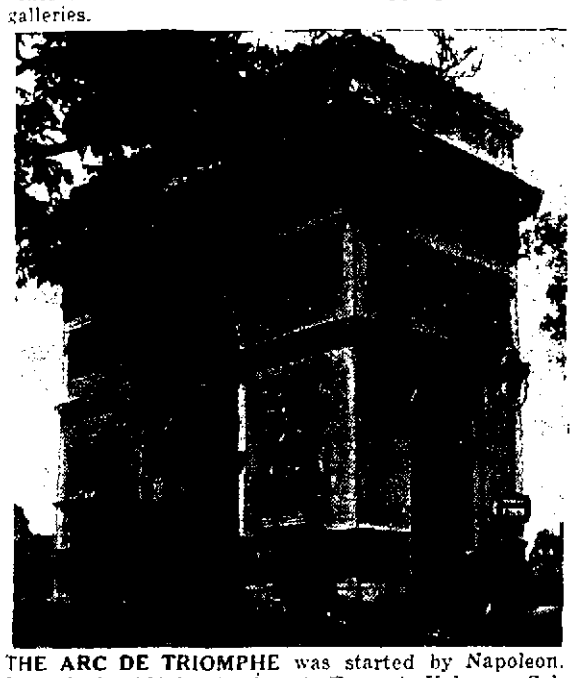


WHAT TOURISTS REMEMBER:

NOTRE DAME, a Gothic masterpiece famous in history and story since the thirteenth century, stands on the site of a Roman temple.

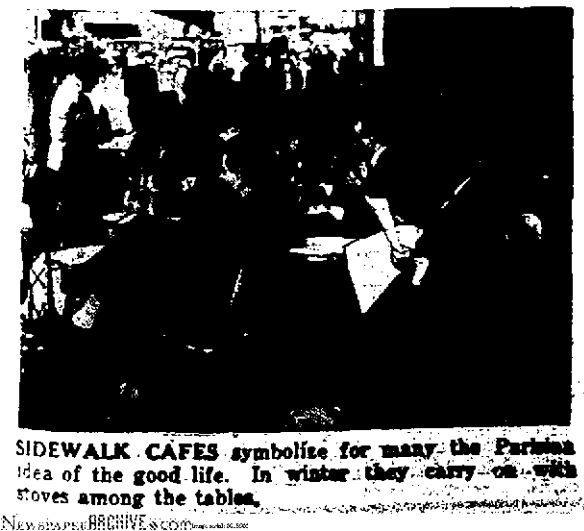


THE LOUVRE, world-famous art museum, is so big it takes two hours to walk without stopping through its galleries.

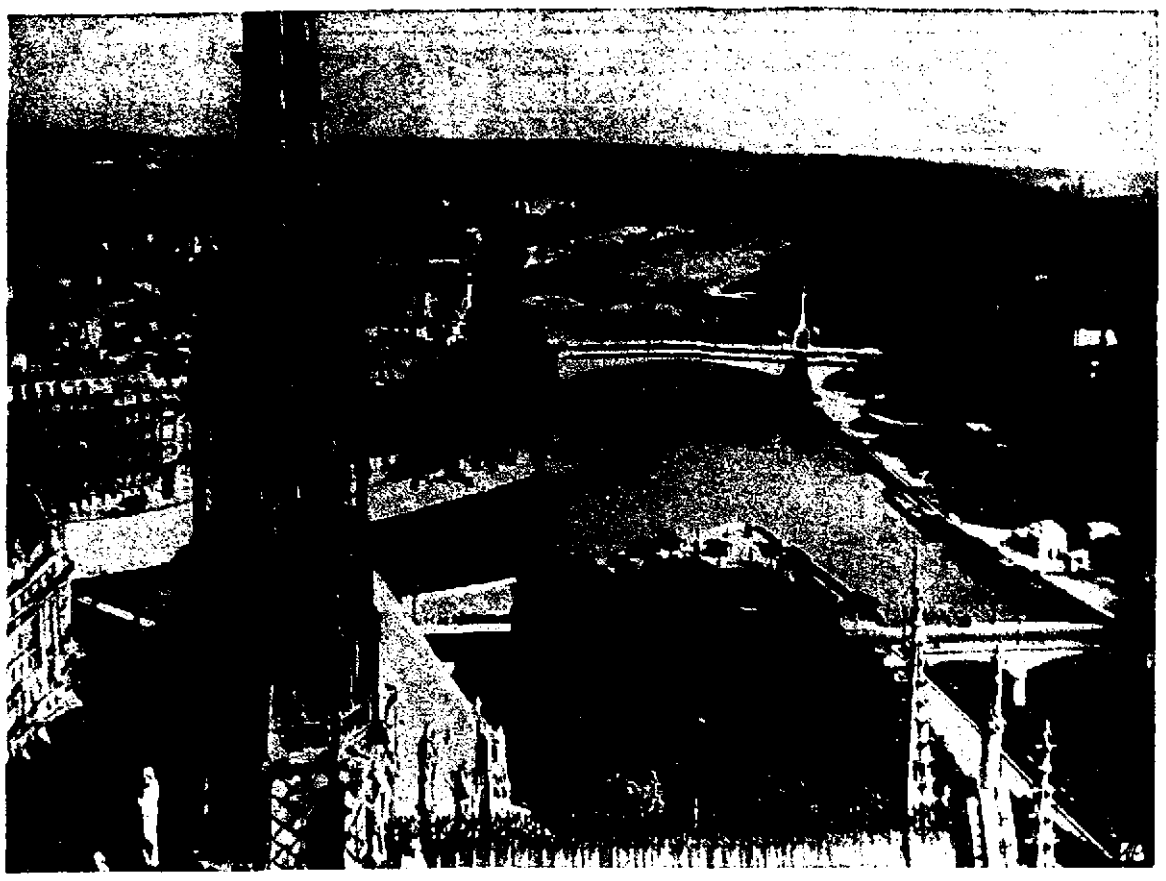


THE ARC DE TRIOMPHE was started by Napoleon. Beneath the 161-foot arch rests France's Unknown Soldier from the World War I.

MONTMARTRE, highest point in Paris, and a center of night life and artistic activity, is crowned by the church Sacre Coeur.



SIDEWALK CAFES symbolize for many the Parisian idea of the good life. In winter they carry on with stoves among the tables.



HOME of 3,000,000 Frenchmen, and the most densely populated city in Europe, Paris has been the world center of culture. This view of the Seine and its bridges is from the Ile de le Cite.

The Plain People of Paris Have Often Faced Trouble

With Optimism... Courage... Foreboding... and Determination

By The Associated Press

WHEN Julius Caesar conquered Gaul half a century before Christ he found the Parisii tribe settled in an island stronghold where the great highway from the Rhineland crossed the river Seine.

• • •

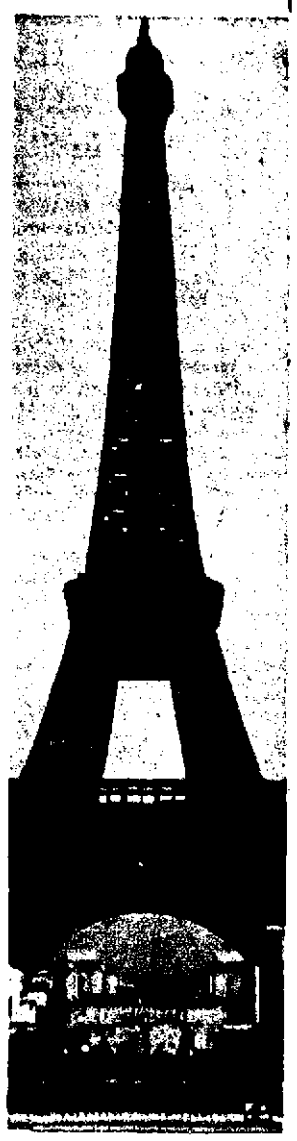
Today the roads from the Rhineland still lead straight to Paris, and Paris spreads in concentric circles of business blocks and homes, boulevards and parks around its ancient nucleus, known today as the Ile de la Cite.

Paris grew with France and with the Renaissance became a cultural center. Under Louis XIV, the sun king, magnificent buildings like the Louvre and the Tuileries sprang up.

The Revolution gave the capital and its people new importance and Napoleon gave it classic architecture to befit an imperial city. Then his namesake, Napoleon III, laid the basis of the modern city with its broad boulevards that could easily be raked by gunfire.

• • •

Finally the industrial revolution and the first World war made Paris the commercial center without a rival in all France. "London is masculine, Paris feminine," say glib phrase makers, for it has been the gayest of all the great world capitals.



TRADE MARK OF PARIS. The Eiffel tower, 984 feet high, was world's tallest when built 61 years ago; has served as radio station, weather tower, sightseers' must.
